ALLIES STEADILY EXTENDING LINES

Constantly Reinforced, they Continue Flanking Movement

ATTACKS REPULSED.

French Military Expert Confident Kaiser's Army Will Retreat Upon Defenses in Belgium.

Berlin, Oct. 5 (via wireless through Sayville, L. I. to the United Press).—Portugal is believed to be about to take part in the war at the demand of Great Britian on the side of the allies.

Paris, Oct. 5.—The northern flanking movement continues. The allied armies, constantly re-enforced, are steadily extending their lines north beyond Arras.

By sheer force of numbers they are pushing the German right wing steadily eastward.

Every attempt of the Germans to break through in the neighborhood of Roye and Lassigny and to relieve the pressure on the extreme northern line has failed.

The outcome, the French military experts say, will soon be the long-looked for German retreat to the new line of defenses in Belgium. The pressure is becoming so great that if for no other reason strategic considerations will force a withdrawal.

The center, from the Oise to the Argonne, has witnessed no change for more than a week. Here both armies remain in strong entrenchments, their fates depending on the battle in the west and east.

The army of the Crown Prince is still being pressed backward in the Woevre region, while the French columns, advancing from Toul and Nancy, have forced the Germans to life their siege of certain of the Meuse forts.

All officials in Paris today characterize the general situation as satisfactory. The armies at the front are being constantly augmented, while it is certain, judging from wireless messages, interpreted by the field forces, that for the present at least the Germans are at the end of their resources.

They have been compelled to send so many troops to the east to hold the Russians that there are at present no additional troops to re-enforce the western fighting line of Generals von Boehn and von Kluck, which have already been given every possible soldier that could be spared from the center and from Alsace-Lorraine, where proceedings are at a standstill.

SITUATION AT ANTWERP.

Antwerp, Oct. 5.—Despite the continued bombardment of the southern forts, the general staff today, in an official statement, denied the German contention that the fire of some of the minor forts has been silenced.

"The situation continues excellent," says the statement. "Every fort in the defenses of Antwerp is in action. At no points have the Germans made gains. We can hold out indefinitely."

The German commander has been approached by the American minister who remains in Brussels, according to reports received in Antewerp, and asked to spare, as far as possible, the historic structures of this city. According to advices received in Antwerp, the German general stated that he would do so, as long as the Belgians do not use them for military purposes.

Re-enforcements have arrived in the city nad have been sent out to aid the forts in repelling German attacks.

PROBATE POSTPONED

The probate of the will of the late William K. Davidson, which was scheduled to take place in the Corporation Court this morning, has been postponed until the November term in order to permit the beneficiaries under the will to reach a compromise among themselves.

NEWS OF THE DAY

A London news agency dispatch from Amsterdam declares that in preparations for a retreat from France the Germans have moved the general staff headquarters from Luxemburg to Mainz, which is on the east bank of the Rhine and is a strong fortress. The same dispatch says advices from Brussels indicate that t he Germans are contemplating an early withdrawal from that city, having already sent to Germany the wounded soldiers and official archives.

C. G. Evans, aged 30 years, of Chester, Pa., had his skull fractured yesterday and died 10 minutes later at the Delaware State Hospital Farnhurst. He was thrown from his motorcycle when he suddenly jammed on the brakes while racing with another machine along the Farnhurst road. Evans was riding a motorcycle to which a small carriage was attached, in which his wife was riding. When another machine drew up alongside Evans told his wife to alight, so he could race. She did so and saw her husband fall to his death.

A touring car operated by Clifford Stuls, 17 years old, of Hutchinsons road, near Trenton, N. J., was overturned last night between Trenton and Princeton, killing the youth and his infant brother, and dangerously injuring their mother. Addison Stults, the father, who is a prominent farmer, was severely lacerated about the head, and two other members of the party were less seriously injured.

Much interest has been aroused by a new type of Mauser pistol which is being supplied to German officers. It is asserted that it will kill at a mile. It is sighted for 500 yards and fires eight cartridges. It is provided with a leather arm rack, which enables the officer to rest his left arm and take careful aim. It is regarded as a miniature machine gun. Only 500 of these pistols are now in use.

Miss Sanchez Gavito, a daughter of one of the most prominent attorneys in Mexico City, was dragged from her horse while riding in Chapultepec park Friday and attacked by four constitutionalists soldiers, according to reports received in Vera Cruz. Miss Sanchez Gavito, the report said, later committed suicide in Lake Chapultpec. The young woman was a member of one of the oldest and most aristocratic families in Mexico.

MURDER IN NEW YORK.

Theater Watchman Dead in Fight With Burglar.

New York, Oct. 5.—"I did my duty," were the last words of Harry F. Edmonds, special officer in the Jefferson Theater, East Fourteenth St., after a fight with a burglar early today in the engine room of the theater. Simonds was stabbed to death. The murderer escaped, leaving behind a stilleto with bloody fingerprints.

The watchman heard a noise in the cell ar as he was watching a midnight rehearsal on the stage, after his day's work was finished. He went down to investigate and was attacked by a short, stout built man. They grappled. Edmonds fell with nine stab wounds and a bullet hole in his jaw.

The slayer made his escape brandishing a revolver, although the engineer, Louis Blankenburg, pluckily struck him over the head with a shovel but did not check the slayer's er's fight.

STRIKING FEATURE OF WAR

London Oct. 5—"One result of the war has been a distinct religious revival in France." says the Paris correspondent of the Times. His dispatch continues:

"The so-called clevical peril has disappeared from popular imagimition. Everywhere priests have been distinguished for their heroism and patriotic devotion. Several have died on the field of battle, and others are showing great devotion as chaplains and in attending the wounded."

The Times today says:

"No feature of the war has been more striking than the religious feeling it has evoked. We shall be surprised if the war and the prospiritual emotions it has kindled are not attended by a quickening and deepening of the religious feeling in England as well as France."

DEFEAT GERMANS ALONG THE NIEMAN

Kaiser's Army Endeavors to Resume Offensive on Eastern Field.

CZAR MAKES A VISIT

Cossacks Seize Passes of Carpathian Mountains and are Now Moving Rapidly to the South.

Petrograd, Oct. 5.—The Germans, defeated along the Niemen, have reformed just inside the Russian frontier and are endeavoring to resume the offensive, according to reports received here today.

Fighting is also in progress all along the Polish frontier, where the Russians are delivering a series of attacks on the German entrenched positions.

At Kutnow the Germans were defeated and forced to retreat with a loss of 2,000 and two heavily armored automobiles.

It is announced that the Czar's arrival at the front was the signal for patriotic demonstrations, after which the Russian soldiers, in a series of wild attacks on the Germans, gained decisive victories at nearly every point.

The fighting in Galicia continues, with the Austro-German forces on the defensive.

The Rome correspondent of the London Star says that the Cossacks who have seized the passes of the Carpathian mountains are now moving south, and have occupied Hosszumezo. He states that the Cossacks have also cut the railway line at Czibet, thus isolating a great portion of Hungary.

The invasion of Hungary, the correspondent says, is first of all to prevent any flanking attacks by the Hungarian troops, and then generally to interfere with Hungarian mobilization and instruction of recruits, by providing an ever-present menace.

Negro Kills His Wife.

Richmond, Oct. 5.—After murdering his wife Saturday night by a shooting her through the heart with a large calibre pistol in their home in the presence of their three younger children, Joseph Strong, a negro, of 913 North Twenty-first street, walked out of the house, fired three times at people standing in the street, and then made his getaway before the arrival of the police.

Mary Strong, supposed to have been about thirty years old, was the mother of five children, three of whom were in the room when she was shot by her husband.

THREE MEN ARRESTED.

Officer Rawlett Takes Three Men in Custody.

Officer Rawlett early this afternoon arrested a negro, who gave his name as Ernest Miller, for disorderly conduct in the northeastern section of the city. It is alleged that he was on the rampage when the officer appeared, threatening to cut different persons. A knife was taken from him after he had been brought to the station house.

As soon as he turned his prisoner over to the men at the station house Officer Rawlett went to the Alexandria Quick Lunch House on King street, where the police was wanted. He took in charge two white men—W. Decatur and Arthur Dickerson—who were charged with disorderly conduct in the place. They stated that they are from Widewater, Va.

HUMANE WEAPON.

Wonderful Effect of Novel Explosive Used by French.

London, Oct. 3—There have been stories for some time of a new and dreadful explosive, the invention of a French chemist, which would astonish the whole world. A. A. Roberts, the well known analytic chemist, writes:

"An evening paper is responsible for the following:

'One wonders what kind of shells the French must have been using to cause a regiment of German infantry to die in their trenches standing bolt upright and still holding their rifles in firing attitude.

'The Daily Telegraph correspondent quotes the remarks of an American member of the Red Cross as having seen 'the German trenches as the French guns had left them, filled with dead, but with dead in such posture as the world has never seen since the destroying angels passed above the Philistine camp in that avenging night of Scripture. They stood in line, rifles to shoulder, a silent company of ghosts.

"To the foregoing the correspondent adds, 'That was my friend's story I gave it without comment.'

"There is no longer necessity for further privacy as to that which is an open secret, for not during this colossal struggle could the enemy hope to exercise its clever imitative propensities in the direction of turpinite.

"The manufacture of this latest hell producer gave the French authorities at—much food for reflection.

"One of the salient features of this novel terror is that it cannot be fired from an ordinary field gun, and for its use guns of particular and difficult construction are required.

"The handling of these guns is at present confined to specialists. And the successful experiments carried out at Chalons-sur-Marne taken place earlier the result of this war in so far as its primary stages were concerned might well have been different.

"Turpinite, which of course, may derive its name from the famous inventor of melinite, produces complete paralysis of certain organs of the body, causing instant death to every living thing within its reach.

"That the end thus accomplished is without pain or convulsion has been abundantly demonstrated by a lengthly series of experiments. It follows, therefore, that among modern instruments of warfare this invention must be counted as the most humane.

"The explosive produces an effect wholly different from that derived by lyddite fumes. Other advantages are claimed for it from military points of view. Who can say that the therapeutic value of this discovery may not afterward assert itself or that an antidote may not hereafter be found? Whether the latter could be made the subject of military usage is another question."

PEACE SERVICES HELD.

Large Congregations Attend Churches Yesterday.

Alexandria church-goers turned out in large numbers yesterday to take part in the special peace services held in all of the churches of the city.

A peace ritual prepared by Rt. Rev. Robert A. Gibson, bishop of the diocese of Virginia, was read at the three Episcopal churches in addition to the regular prayers.

At St. Marys Catholic Church a special letter prepared by Rt. Rev. D. J. O'Connell, bishop of the diocese of Richmond, calling on all to pray for peace, was read by the pastor, Rev. H. J. Cutler.

Many of the ministers in their sermons touched on the war in Europe.

Collections at Christ, St. Paul's and Grace Church, were for the Red Cross. At Christ Church among the contributions received was one from the Spanish-American War Association, being the funds left in the treasury of that organization since 1898.

Petrograd newspapers report that Germany proposed, through the United States, an exchange of prisoners with Russia, which the latter refused.

HOTELS ARE FILLING

Richmond Expects to Gather Large Harvest From This Year's Fair—Large Crowds Anticipated.

Richmond, Oct. 5—With practically everything in readiness, the grounds completely equipped and decorated and the exhibits assigned to their proper places, the Virginia State Fair Association opened its gates this morning at 8 o'clock. Manager Warwick and his large corps of assistants are optimistic at the outlook, and are confident that this year the fair will be the most successful in the history of the association.

Hundreds of visitors are already in town, and the hotels are rapidly filling up with those who had previously engaged quarters and with the usual crowd of early stragglers. On the grounds the traveling showmen have made themselves at home, and are snug and comfortable within their tented walls.

There will be an average of 5,000 out-of-town people in Richmond every day this month. Two big national conventions, the bankers and bakers together with the Virginia State Fair will be the drawing cards, while the transient population, estimated as something more than 2,000 for each day in the year, will swell the total.

These visitors, it is figured out will leave nearly $750,000 behind them. They will harly spend less than $5 a day on an average. The larger part will go to the hotels, but the shops and the amusement places will get their share

SETTING POLES IN WATER

Some interesting difficulties were encountered in rebuilding the Company's line running in a southerly direction from Alexandria, Va., to Mt. Vernon. Most of the trouble was experienced in replacing that part of it which passes over Hunting Creek bridge, an old structure that has no underpinning suitable for attachments.

In placing our poles at this point it became necessary for us to set eight of twine with two guy stubs ten feet in depth. To do this we had to tackle the job at low tide, and even then the hip boots worn by the men were none too high. Several times a man tripped, went down for a ducking and came up with his boots filled to the tops with water. They didn't seem to mind it, however, as long as a thorough job was turned out.

To set the poles at the proper depth several unusual processes were necessary. First, the pole had to be sharpened to a point. Then the workmen had to bore a hole in the creek's hard bottom to permit the pole to be placed in line. As soon as the pole reached a depth that assured a good start a rope was attached to its top and run to a man on the bridge, who used this guy as a means of giving the pole a sideward motion as it was rocked into position by the men with pikes stationed in the water.

The poles were buried to an average depth of eight feet, and it is safe to say that no wind or tide will harm them. The old poles which were taken down had stood the elements for over fifteen years.

COUNTY SPEAKEASIES.

Sheriff And Posse Make Descent Upon Certain Places Yesterday.

Led by Sheriff A. H. Barbour, a squad of deputies for Alexandria county, swooped down on the river front of the Old Dominion yesterday afternoon and raided several alleged "speakeasies" and gambling resorts.

In the raiding party were Sheriff Barbour, eputy Sheriff Harry Palmer, Deputies A. D. Langley and W. E. Payne.

Joe Smith's boathouse, just south of the railroad bridge, over the Georgetown channel, was visited, eight men captured, and a quantity of whisky confiscated. From there the raiding party went to the shanty of Henry Norman, colored, further down the river on the Washington channel. They broke up a poker game, and seized a quantity of whisky, beer, game chickens, and other sporting paraphernalia. Several men were arrested at this place.

The men arrested at these two places were locked up. Then the raiders visited the boathouse, "The Ark," near the south end of the Highway bridge. Here, it is said, the raiding party met resistence and had to fight their way. In this raid a man giving the name of Harry Hefner, and his profession as a press photographer, agreed to offer his automobile to help the officers haul their booty to Alexandria Courthouse, and in turn was not to be prosecuted. Langley got in the machine with him, but later was shoved suddenly from the car. Langley fired several revolver shots at Hefner as he escaped in his machine.

COMPULSORY LAW MAY BE ENFORCED

Parents in State Can Be Required to Send Children to School.

PUT UP TO THE VOTERS

Under Law, Children Between Eight and Fourteen Years Must Attend at Least Twelve Weeks.

Richmond, Oct. 5—Compulsory education for children between the ages of eight and twelve years will or will not be given a trial in this city, according to the decision of the majority of the voters, as shown by the results of a vote taken during the general election on November 3. The question is submitted to the people on the recommendation of the City School Board, in accordance with an act of the General Assembly, passed at the session of 1908. On the same day the electorate of Henrico County will vote on the question.

The law under which the question is submitted to the people of a school district was passed in such a manner as to make its provisions optional in the cities, towns, or counties. Those qualified to vote are those who could have voted in the general election. The law follows:

"Be it enacted by the General Assembly of Virginia, That every parent, guardian, or other person having charge or control of any child between the ages of eight and twelve years, shall be required to send such child to a public school of this Commonwealth for at least twelve weeks in each school year, at least six weeks of which shall be consecutive unless, the district school trustees of the district in which the parent, guardian or other person resides excuses for cause such child, or unless such child be weak in body or mind, or can read and write, or is attending a private school or lives more than two miles by the usual traveled route from the nearest public school, or more than a mile from the line of an established free school wagon route; provided, however, that the provisions of this act shall not apply in any county, city or town of this Commonwealth except and until the qualified voters of such county city or town shall, as hereinafter provided, avail themselves of the opportunity."

A school board is given the right, by a majority vote, to ask that the question be submitted to the voters. On the ballot the words shall be: "For Compulsory Education" and "Against Compulsory Education."

A parent, guardian or other person in control of a child subject to the law, who shall neglect to comply with its provisions, after being adopted by the city county or town, will be liable to a fine of not less than $2 or more than $10 for the first offense, and not less than from $5 to $20 for each subsequent offense. The fines are collectable by the clerk of the school board, before any court of competent jurisdiction, and the money shall be applied to the district school fund.

The clerk is required to prosecute the offender whenever a member of the school board, or any taxpayer of the district in which the offense is committed, files with him an affidavit setting forth the facts. If he neglects to do so for fifteen days, he shall be liable to a fine of from $5 to $10 for each offense. The clerk shall receive a fee of $2 for each prosecution.

SUNDAY SCHOOL PARADE

Six Hundred Scholars Meet in Armory Hall Yesterday Afternoon and Give Rehearsal.

The Union Sunday School and Song Festival to be given next Sunday afternoon is being anticipated with considerable interest by the children of various Sunday Schools of the city. Many persons from other cities will doubtless be present on the occasion, and an interesting time is in store for Alexandria.

The colors which will be worn by the children will be those of the rainbow, each school being known by one of the hues.

About six hundred pupils of most of the Sunday Schools of the city, met in Armory Hall yesterday afternoon for the purpose of rehearsing the respective parts they will play in this great turnout.

As has been stated, Rev. Dr. E. K. Harding, of the Mount Vernon Circle M. E. Church South, will deliver the address to the children.

The song festival is to be a prominent feature of the parade, and the rehearsal made it plain that the participants will acquit thmselves creditably.

GERMANS FALL INTO TRAP

Hundreds Swept Into River by Russian Cannon.

London, Oct. 5.—A graphic account of the frustration of an attempt by the Germans to cross the Niemen River is given by the Daily Telegraph's Petrograd correspondent.

"The Germans appear to have fallen into a Russian trap," the correspondent says. "On September 23 the rear guard of the Russian army under Gen. Rennenkampf was transferred to the right bank of the river, and the following evening the Germans approached the stream. The next day, seeing no signs of opposition, the Germans proceeded to construct pontoon bridges, and completed this work without molestation.

"It was only when the troops were pouring across to the right bank in fancied security that a sound like the roll of thunder was heard, and dozens of Russina guns, cleverly posted and screened, opened their concentrated fire on the crowded bridges.

"Before the blast of shrapnel and machine gun projectiles the Germans were swept into the river by hundreds. Speedily, however the challenge of the Russian guns was taken up by the German artillery, and after a long time the duel continued.

"At last the angry Germans, made another attempt to throw their troops across the Niemen. But this time also they had no better luck, and not one of the soldiers who stepped upon the bridges either reached the opposite shore or returned.

"The bodies of the slain floated in hundreds down the yellow flood of Niemen. Still the Germans vigorously maintained their bombardment, and about 6 o'clock in the evening made a last and desperate effort to utilize the bridges on which they had spent such pains.

Columns in close formation were sent forward to the crossings, but once again every man was mown down by the murderous fire of the Russian machine guns.

"With the fall of evening the German batteries were silenced one after the other by the steady and well-directed fire of the Russian artillerists. The enemy then fell back 8 miles, pursued and harassed by Cossacks, who had crossed the river on the German bridges.

According to one account no fewer than 20,000 German corpses were carried down the Niemen after this awful carnage.

"In the fight at Sredniki, on the Niemen, September 15, the German casualties also are said to have been large. An eyewitness of the battle says that in the river and on one of its banks no fewer than 8,000 German perished. On the opposite shore from the city, the bodies of 1,500 Germans were lying unburied for some days afterward."

FATAL AUTO ACCIDENTS.

Law Student Dying as Result of Spill.

Charlottesville, Va., Oct. 5.—Unconscious for the past 24 hours, William M. Taliaferro, aged 21, a second-year student in the University of Virginia law school, is not expected to survive.

In company with six student friends, young Taliaferro went out on the Ivy road Saturday night to christen his new $6,000 car, which he had just received from his father, a Tampa banker. In endeavoring to dodge a wagon, which was encountered unexpectedly, the rear wheels of the car skidded, the machine turning somersault and landed in a ditch. Four members of the party were rendered unconscious. All save Taliaferro are out of danger. Taliaferro's parents, who were visiting near Orange, on their way home from New York, reached the University yesterday.

Elkton, Md., Oct. 5.—A frightful accident occurred Saturday at the grade crossing of the Baltimore and Ohio Railroad at Singerly, two miles north of here, late Saturday night, which resulted in the death of four persons, Mrs. Lillie Harlan, aged 47 years, wife of Haines Harlan, her two children, Theodore, aged 10 years, and Helen, aged 12 years, and her maid. Miss Elizabeth Stewart, aged 19 years. Mr. Haines Harlan was also seriously injured, his shoulder blade being fractured.

The party left their home in the Fourth district Saturday afternoon in their new Ford automobile for Wilmington, Del.

When they reached the railroad at Singerly on their return Mr. Harlan, who was running the car, heard the bell ringing, which indicated the approach of a train. Looking down the track he noticed a freight in the distance. Believing he had plenty of time to get over the crossing he did not stop the machine. The car got over the eastbound tracks all right, but just when it reached the center of the westbound tracks it was struck by an express train. The eastbound freight, which at that time was only a short distance from the grade crossing, also struck the automobile.

Hagerstown, Oct. 5.—Miss Clara Huyett, aged 22, was killed, and her sister, Miss Bettie Huyett, Miss Melchora Garver and Albert Stockslager, were more or less seriously injured when the automobile in which they were riding struck the wall of a bridge over Antietam Creek near Benevola, eight miles south of this city, Saturday evening.

LAD KILLS HIS FATHER.

Was Playing with Cat Rifle In a Kitchen When It Was Discharged.

Frederick, October 5—While playing with some guns Charles Hahn, aged 11 years, accidentally shot his father, Elmer Hahn, aged 41, of near Union Bridge, yesterday morning while they were visiting at the home of Mr. Hahn's father-in-law George Powell, near Thurmont, this county. The bullet entered the father's head just above the eye and penetrated the brain. He died two hours after being shot, while arrangements were being made to have him removed to the Frederick City Hospital.

The shooting occured in the kitchen of the Powell home. The boy had been cautioned to stay away from the guns, but he picked up several while no attention was being paid to him, and soon after he laid his hands on a .32-caliber cat rifle it exploded. The father was sitting in the dining-room, the bullet going through the open doorway and striking him.

The members of the family hearing the report, and seeing Hahn throw his hands to his head, did not realize just what had happened. Hahn toppled and fell from his chair at the breakfast table. Death came before he could be moved. Young Hahn apparently does not realize what he has done.

IRISH AND SCOTCH SOLDIERS.

About Twenty-Six Thousand in British Ranks.

Dublin, Oct. 5—The number of new recruits for the British army obtained in Ireland amounts to about 26,000. More than 8,000 of these are from the Dublin district, 4,000 from Cork, district, and the remainder from Belfast. Not all the Belfast recruits are Unionists, nor are all the southern recruits nationalists. The Belfast nationalist claim to have furnished 5,000 of the Belfast recruits, which number, relative to their population, is larger than the proportion supplied by the unionists.

London, Oct. 5—Some estimates say that some 5,000 Irishmen from Glasgow, have joined the colors. From Lancashire, it is said, omitting Manchester and Liverpool, 15,000 have joined. Leeds has furnished many Irish recruits and Dundee 1,000. The mining villages have been largely depleted. Birmingham will furnish at least 3,000. Similar reports came from South Wales, Bristol and the west.

London, Oct. 5—Figures showing the percentage of recruits enlisted in England, Scotland, Ireland and Wales, as obtained from the director of recruiting, and published in the Liverpool Courier, makes Scotland appear as the most generous contributor of men. That country sent 64,444 of the half million soldiers fighting in the British army.

MOB ATTACKS CIRCUS HANDS

Three Men Are Injured In Melee In Federsalsburg.

Federalsburg, Md., Oct.5—At the conclusion of the evening performance of Latena's Circus here Saturday night a fight took place between employees of the circus and a mob of whites and blacks. Eugene Thrice, of Williamsburg and Derickson Wheatherby and Gilbert Sullivan, of Federalsburg white men were beaten Thrice is in a serious condition. Wheatherby was struck in the face and head with steel knuckles, gashes several inches long being inflicted Sullivan was struck in the head with a club and knocked unconscious.

The circus train left here shortly after midnight and between here and Oak Grove it was fired upon twice, supposedly by some of the gang who were in the fight at the station. Great excitement prevailed on the circus train, especially among the women and children performers. The train was stopped after each volley, the circus hands giving chase and returning the fire.

Railroad Detective Healey was accompanying the train. He and the officers here are said to know many of the offenders and several arrests are expected.

CHURCH SERVICES YESTERDAY.

President Wilson yesterday attended church and united his prayers with those of the nation for the speedy termination of the greatest of all wars which is in progress in Europe. While people in the United States were bending their heads in mute and oral appeals to heaven to turn the minds of men from carnage, the most advanced and civilized countries of the world were engaged in the sickening slaughter of men made in the image of the Creator.

In churches in Alexandria special prayers were uttered in the interests of peace, while the ministers spoke in the most feeling terms of the terrible conditions now prevailing in countries engaged in this fearful struggle. The song of the angelic choir, "Peace on earth, good will to men," that protest against man waging war on man, was used as a text in some churches.

Apart from the sickening slaughter incident to this wholesale contest the terrible cost must not be ignored. Germany is said to be spending five million dollars a day and France seven millions. Prices of the necessaries of life are soaring, and actual distress prevails in some places. The authorities of Vienna are facing a serious problem. One hundred thousand persons are reported as being destitute in that city, and they must be fed at public expense.

LET DEMOCRATS STOP AND THINK.

It is said there are some democrats in Alexandria who for some fancied grievance would by voting for the Republican candidate for Congress jeopardize the splendid administration of President Wilson in this district in the election of a man who is not in sympathy with anything yet accomplished or contemplated by him, and who would vote, if elected to the House of Representatives, to supplant that grand old Democrat, Champ Clark, with a Joseph Cannon or something worse, and thus give control to the enemies of the administration. Of course, no man who values his privilege to vote in the Democratic primaries will forfeit that right by alligning himself with the Republican party. We advise those so contemplating to stop and think.

Below we print an editorial from the St. Louis Republican, which shows what is thought about the administration of President Wilson elsewhere in our country.

"Today the fruits of President Wilson's administration, not yet a year and six months old, are piled high before us. We were warned that the passage of the tariff act, which was its first conspicuous achievement, would flood American markets with foreign goods, but the import statistics of the first nine months of its operation show that the normal annual increase of our import trade has not been equaled under the new tariff. We are about to put into operation a banking law acclaimed by the financial wisdom of this country and Europe. Our national good faith has been vindicated in the eyes of all the great carrying nations of the world by the repeal of the canal tolls exemption act. Our relations with South America have been brought to the best condition they have presented since the Mexican War. And now, with all Europe ablaze with war, the United States, thanks to Woodrow Wilson's good sense, wide sympathies, political tact and colossal indifference to detraction and criticism when serving his nation as God has given him wisdom to serve, is at peace with all mankind and ready to serve the world with trade, and treasure, with food and implements of work, as only a mighty nation at peace can serve a world broken and distracted and pain-stricken by war.

"Some men have to wait until they are dead before the quality of their public services appears. To Woodrow Wilson's countrymen has been given the vision of the value of his work while he is yet alive. We can not heal the grief which is his portion, but, in view of the harvest of his labor which is before us, the least that we can say is the word: 'Well done.' We can at least join our wishes and our prayers that the sense of work faithfully wrought may nerve his hand and brain for the tasks which still confront him, and that, with all the weight of his personal griefs, something of the deep joy of the reaper among the garnered sheaves may be his in these autumn days."

PRAY FOR END OF WAR.

Ministers in Alexandria Churches Offer Supplications for Peace And Good Will Among Men.

The churches in this city yesterday were well-attended, and the congregations united their appeals to the Ruler of All to cause hostilities in Europe to cease. In some churches the proclamation of President Wilson asking prayers on these lines was read. The ministers read suitable passages from the Bible, and delivered sermons appropriate to the occasion.

Rev. Dr. Jno. Lee Allison, pastor of the Second Presbyterian Church, preached to a large congregation yesterday morning and took as his theme the President's request for prayers in the interest of peace. He read the President's proclamation: His text was: Luke 2:14. He said in part: The great question today is how peace may be made and maintained. After 2000 years of civilization and christianity, men hate and fight one another as if Jesus never lived and died.

Three methods of making peace have been tried. The first is militarism. This answers the question by having a large army and formidable navy, thus trying to command peace, but this contention is not justified by present results in the titanic struggle in Europe.

Militarism creeds war nad incites interracial passions. The second method is that of statesmanship. The statesman says refer all matters to The Hague conference and adjust things by law and right rather than might. This is a long step toward peace, but the third method is a solution to the great problem, namely, christianity. The spirit of Jesus, Christ breaks down walls of racial differences and makes a man feel that, in another there is a brother and he must be treated as such.

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework.

The least amount of work fired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

PLACES BLAME FOR WAR.

Cardinal Farley, Says Warring Nations Disregarded Good Counsels of Church.

New York, Oct. 5—Cardinal Farley making his first public utterance since his return from Europe, placed the blame for the European war on the heedlessness of the warring nations, to listen to the good counsels of the church. He mentioned but one country—France—in this connection. "That country," he said, "suffocated every breath of freedom out of the church."

The aged Catholic prelate made his address in St. Patrick's Cathedral at high mass. At the conclusion of his address he offered a prayer for the discontinuance of the "scourge of war," and begged for a continuance of peace in this country.

In part the cardinal said:

"There can be no peace except through the Prince of Peace. As the people of Europe in late years have rejected the word of God and spurned the hand of Pius X, they now have war.

"The Pope died amid the sounds of battle of the nations, praying for peace. His heart was broken, by the thought of strife in this civilized age.

"Had these European countries looked to him for advice, this carnage would not have occured, But, on the contrary, every country was persecuting the church, robbing the church, and trampling its rights. They regarded her as behind the age and not to be listened to. Yes, we are now paying the penalty—redemption by blood.

"In the churches of Europe I have visited, knees and heads are being bended by men and women, pr for God to have mercy."

His voice quivered with emot he recited scenes he had wit in the Austrian Tyrol which h ed "The most Catholic land world." He was there when w declared.

"All along the mountain roads met these mountaineers con along with their horses," he said. "They were men impressed to the service o the plac they ... ed (... men ... this ... dress.

...$125,000 to ... Miss Sullivan.

New York, Oct. 5—It has c... Arthur Hoe about $125,000 so ... to have known Miss Mae Sullivan, and out of the ...0,000 in cash which his father bequeathed him there is nothing l...

This was the statement made Saturday by Edward G. Prinkle, counsel for Hoe, in a formal denial that his client would compromise either of the two Supreme Court actions brought by Miss Sullivan, in which she asks damages aggregating $225,000.

"Miss Sullivan and her friends have received, directly and indirectly, nearly a third of the cash which Mr. Hoe inherited from his father. Her $150,000 breach of promise suit last June resulted in a disagreement, and now she is going ahead with an action for $75,000 based on her claim that my client promised her $1,000 a month for life. We will fight the second action just as vigorously as we did the first, and there is not the slightest intention to compromise either case."

EARTHQUAKE SHOCK.

Buffalo, N. Y., Oct. 5—An earthquake of grave force and ... proportions was recorded on the seismograph at Canisius College Saturday afternoon. The first disturbance began at 12:-22:15. Intermittent tremors followed for an hour and ... minutes. The main shock was ... five millimeters amplitude. Professor Curtin, of the College said that according to scientific deductions the real quake was evidently in Martinque, French West Indies.

Washington, Oct. 5—An earthquake shock of 2,000 miles from Washington, lasting nearly an hour and a half, was registered by the Georgetown university seismograph Saturday afternoon, according to announcement from Father Terndorff, the astronomer.

ACCIDENTAL KILLING.

Harrisonburg, Va. Oct. 5—While up a tree gathering chestnuts last week in the Allegheny Mountains, twenty miles west of here Prince Lilly, twenty-three years old, was accidentally shot and killed by David Reid, an old Confederate soldier, who throught he had a bear treed. As Lilly fell from the tree, Reid attempted suicide, but was prevented by the dead man's cousin.

RIGHT JAW FRACTURED.

First Year Student of Union Theological Seminary Injured at Football.

Richmond, Oct 5—W. C. Jamison, first year student at Union Theological Seminary, who taught in the Kinston, N. C., High School last session and coached the gridiron squad there, sustained a fracture of his right jawbone here Saturday afternoon in a game with the Richmond Howitzers, who were defeated, 46 to 0. During the last few minutes of play Jamison, who was fullback, tried to intercept a forward pass and in so doing came in contact with the cranium of the Howitzers lineman. Though he saw stars momentarily he continued in the play and it was not until after the game that he realized that he was seriously hurt. A singular feature is that two other fullbacks of the Seminites have also been put out of commission this season.

MOONSHINERS CAUGHT.

Walker Nichols Had Escaped From Revenue Men a Year Ago.

Luray, Va. Oct. 5—Walker Nichols who escaped from revenue men in this county about one year ago, and who since that time is said to have been operating as a moonshiner in the Blue Ridge, in this county, has been recaptured by a posse of revenue men. The revenue men, under the direction of Deputy Sherig Renalds, of Luray, for several nights have been in the mountains trying to locate the scene of Nichols' operations. He was finally captured at 2 o'clock yesterday morning and has been taken to Harrisonburg for ... The veteran moon-

retary's communication that the administration favors the acquisition of the home of Thomas Jefferson, Representative Levy continued:

"There was no threat in the suggestion as made by Secretary Bryan, and the way in which it has been presented puts a different aspect on the matter than it has had heretofore, when an effort was made to take the home from me. I shall probably have something definite to say within a short time."

A resolution is pending in the Senate, with Senator Martin, of Virginia, as its patron, to create a commission to investigate the question of purchasing Monticello, and report to Congress. This resolution was offered after the General Assembly of Virginia had expresesd itself in favor of the acquirement of the historic estate by the government.

It would not surprise anyone here if the Martin resolution should pass an early date. The real unknown quantity in the problem is the amount which Congressman Levy will expect the government to pay him for the property.

PLEADS UNWRITTEN LAW.

Woman Bares Her Past To Save Life of Her Husband on Trial.

Laurel, Miss, Oct. 5—By baring her past and hiding nothing of her relations with Devan Scarborough, Mrs. Kearney Leggett has saved the life of her husband, who killed Scarborough. The jury early Saturday acquitted Leggett, who had pleaded "the unwritten law."

For two days Mrs. Liggett battled to keep her husband from the gallows. She recited her intrigue with Scarborough in detail and read aloud in court her confession of wrong and appeal for forgiveness which led to the killing. She is in a state of collapse, not knowing if her husband would forgive her. She is waiting at the home of her parents for some word that will take her back to her "own home" and to the man she wronged but says she still loves.

Leggett refused to discuss his future action.

"I'm all broken up yet and I can't say anything about my plans," he said. But relatives assert he will not take back his wife.

COLORED WOMAN DEAD.

Lula Pendleton, a well known colored woman, 37 years old, died at her home, 626 South Pitt street, at an early hour yesterday morning.

FATHER'S TERRIBLE DEED.

Killed Two Children And Commits Suicide.

Baltimore, Oct. 5—While sleeping quietly in their bed, locked in each other's embrace, Mary Lentz, aged 8, and her sister, Beulah Lentz, aged 4, were shot to death by their father, James F. Lentz, early yesterday at his home here.

After killing his two children Lentz, turned his revolver upon himself and ended his own life. Lentz's wife, two other daughters, and his sons escaped from the house in their night clothing barely in time to save themselves.

Lentz was employed by the Northern Central Railway, and, according to stories told the police by Mrs. Lentz and her daughter Myrtle, aged 18; he had frequently threatened to kill the entire family. He had been drinking of late, they allege.

Myrtle Lentz said she was awakened about 1 o'clock this morning by hearing her father leaving his bed. She woke her mother.

Lentz angry at finding them up, chased her mother from the house, Myrtle said, Fearing her father might try to carry out his threat, she awakened her sister, Lottie and two brothers, and they left the house in their night robes and bare feet. The younger children were sleeping soundly and she believed they would be safe.

Five minutes later, Myrtle said, three shots rang out. Officers were called, and when they entered the house they found Lentz dying and two children dead, shot through the head.

CONDITIONS IN VIENNA.

One Hundred Thousand Destitute Persons in Austrian Capital.

Vienna, via Paris, Oct. 5.—The Vienna hospitals and all temporary asylums for sick and wounded soldiers are fearfully crowded. The city council has decided to build additional wooden barrack hospitals which will be furnished with 10,000 beds.

The great block of buildings comprising the University of Vienna has been given over entirely to wounded soldiers. The students now meet in improvised lecture rooms in various public buildings.

The army of destitute and unemployed people in the Austrian capital is increasing daily. Thousands are threatened with starvation. The authorities estimate that it will be necessary to provide free meals for 10,000 persons daily, and measures are being taken to carry this into effect.

Owing to the rapid advance in the price of meat and the shortage of live stock, the city council has asked the government to permit the importation of 1,000 tons of Argentine beef.

Italian Laborer Killed.

Petersburg, Va., October 5.—Norfolk and Western Railroad westbound passenger train No. 3, ran over and instantly killed an Italian laborer near Waverly Friday. No one saw the accident and the trainmen did not know a man had been killed until informed later.

It is supposed that the unfortunate man was one of a number employed by a construction company, doing the double-track work for the company.

PUBLICITY

Sure Cure for Corporate Diseases.

The startling disclosures of corporate mismanagement in the last ten years have brought about a general feeling that publicity of corporation affairs is both necessary and desirable for the future well-being of all corporations. This publicity may be affected in many ways and should give the public as well as the stockholders such information as will eliminate all possible chance for corruption and mismanagement.

In the past, managers of some corporations have operated their business in a more or less arrogant fashion, persistently refusing to make their acts known to the public or even to their stockholders. In most instances if these operations had been made public at the time, many of the ills from which they are now suffering would not have occurred and millions of dollars of investment would have been saved.

The cloak of corporate mismanagement is greatly magnified, however, when its discovery comes too late by governmental investigation. Generally speaking, if the facts were voluntarily made public, or if they were made known through established methods of publicity, in the regular course of business, the mismanagement of the corporation would never occur or it could be remedied immediately and the bad effect of it would be comparatively small.

And so it is with many houses of business—in the field of commerce and manufacture. They are afraid of publicity—afraid to have their factories examined and to let purchasers verify statements or facts concerning the goods. The only conclusion to be reached in such case is that the manufacturer has something to conceal, which, if discovered, would not bear out his assertions.

Publicity in relation to all business matters is the best cure for their evils, just as light and air kill the germs of disease.

Consult your local dealer. He will be glad to give you detailed information about our complete line of goods, and will quote you reasonable prices. Be sure goods are made and guaranteed by us.
